Education

University of Southern California

B.S. IN COMPUTER SCIENCE AND BUSINESS ADMINISTRATION, GPA: 3.5/4.0

- Specialization in Mobile Application Development

Los Angeles, CA

Aug. 2017 - Exp. May 2020

Pennsylvania State University

TRANSFERRED IN AUG. 2017, GPA: 4.0/4.0

- Obtained the President's Freshman Award, which is presented annually to undergraduate degree candidates who have earned a 4.00 cumulative GPA

Erie, PA

Aug. 2016 - May. 2017

Experience

Spatial Topology Technology

FULL STACK SOFTWARE ENGINEERING INTERN

- Utilized React.js to create a UI allowing developers to edit Points of Interest (POIs) on indoor maps, a feature that supports a mobile navigation application used by half a million people daily
- Wrote server side APIs in Node.js and integrated a Mongo database to create new POIs, update POI positions, and perform queries
- Collaborated with design team to draft and implement UX changes to improve user experience across the application

Taipei, Taiwan

May 2018 - Aug. 2018

Janet's Bakery

WEB DEVELOPER

- Independently reached out to client and built web application to streamline business processes such as order processing
- Consulted with client to outline website goals, illustrate wire frame, and site functionality
- Developed a user-friendly interface by programming site navigation, social media links, and organizing content into a logical catalog
- Deployed backend API to automatically update orders into a Google Sheet, reducing order processing time by 76%
- Ensured cross platform compatibility by testing across browsers, mobile devices and operating systems

Taipei, Taiwan

May 2018 - Aug. 2018

Taidoc Technology Corporation

FINANCE AND ACCOUNTING INTERN

- Developed detailed spreadsheets to identify trends and help develop forecasts as well as consolidate and analyze monthly results
- Managed and organized accounts payable and accounts receivable files
- Reviewed and maintained vouchers, check payments, and receipts for auditing purposes

Taipei, Taiwan

May 2017 - Aug. 2017

Projects

CryptoTracker

iOS / ANDROID APPLICATION

- Developed a mobile application with the React Native framework to track the fluctuations in cryptocurrency values
- Retrieved and utilized data from CoinMarketCap API to build a table displaying the current price and fluctuation history of the top 10 most popular cryptocurrencies
- Ensured cross platform compatibility by testing across mobile devices and operating systems
